Dear Ms. Dunham:

Pursuant to our telephone conversations, this letter is to confirm our decision, based on thorough research, that Second Chance Program does not require licensure from the State of New Mexico since Second Chance Program is geared towards drug and alcohol rehabilitation and will not be providing Assisted Daily Living services to clients.

Thank you for your interest in licensure with the State of New Mexico and if you have any questions, please call (505) 841-5800 for further assistance.

Respectfully,

Gary Purvines
District 1 Manager
